MARKET MAKES DULL RECORD. Delay Attending German Note Has a Restraining Influence.

New Work, May 28 .- All recent records for duliness in stock dealings were lowered today, the total turnover barely approximating 170,000 shares. In the first hour about 60,000 shares changed hands, but after that the hourly average was scarcely over 25,000. Initial quotations showed a mafority of gains over losses, but this improvement was restricted to shares of secondary importance, including motors and other specialties subject to professional manipulation.

professional manipulation.

The chief element of restraint was the delay attending the German answer to the American note regarding the Lusitania incident. The financial district was alive with rumors dealing with the purport of that momentous communication, but these savored of surmise or conjecture. Further British reverses in the Dardanelles and elsewhere also served to limit trading. Among the few noteworthy move-ments of the session was the weakness of Canadian Pacific, which declined three points. That stock is regarded as the barometer of the American list abroad, but so far as was ascertainable no sales for foreign account were made here.
